I. Introduction

1. In its resolution 56/14, the General Assembly, inter alia, called upon all Member States to report to the Secretary-General annually, by 30 April, their military expenditures for the latest fiscal year for which data were available, using, preferably and to the extent possible, the reporting instrument as recommended in its resolution 35/142 B or, as appropriate, any other format developed in conjunction with similar reporting on military expenditures to other international or regional organizations, and in the same context encouraged Member States that had no information to submit nil returns.

2. In operative paragraphs 5 (b), (f) and (g) of resolution 56/14, the Assembly requested the Secretary-General, within available resources, to circulate annually the reports on military expenditures as received from Member States; to promote international and regional symposia and training seminars to explain the purpose of the United Nations system for the standardized reporting of military expenditures and to give relevant technical instructions; and to report on experiences gained during such symposia and training seminars.

3. On 15 January 2003, a note verbale was sent to Member States requesting them to submit their reports no later than 30 April 2003. The replies received are reproduced in section III below. Any additional replies received from Member States will be issued as addenda to the present report.

II. Action taken by the Secretariat

4. Pursuant to operative paragraph 5 (f) of resolution 56/14 and within existing resources, the Secretariat engaged in a number of activities to enhance familiarity with and encourage greater participation in the standardized instrument for reporting military expenditures.

5. The Department for Disarmament Affairs cooperated with the Governments of Canada, Germany, Japan and the Netherlands in the holding of two workshops on transparency in armaments devoted specifically to the Register of Conventional Arms and the instrument for reporting military expenditures. The workshops were held in Lima, on 26 and 27 November 2002, for the member States of Latin America and the Caribbean, and in Bali, Indonesia, on 14 and 15 February 2003, for the member States of the Association of South-East Asian Nations. In November 2002, with the assistance of the Regional Centre for Peace, Disarmament and Development in Latin America and the Caribbean, the Department issued a publication, the first of its kind, focusing on regional participation in this instrument since its establishment in 1981. In April 2003, the Department also published a booklet, the first of its kind, devoted to the standardized instrument for reporting military expenditures, containing basic information regarding global participation in this voluntary reporting instrument by Member States since 1981.

III. Replies received from Governments

Explanatory note

6. To date, the Secretary-General has received reports from 72 Governments. In most cases, Governments have reported the figures in the tables presented below on the basis of the standardized instrument for international reporting of military expenditures. For analytical purposes, the information on military expenditures received has been computerized, with minor adjustments, to conform to standard statistical practices.

7. The originals of the replies from States are available through the Department for Disarmament Affairs at Headquarters. The annual reports as well as other relevant information on the standardized instrument for reporting military expenditures are available electronically on the Department's web site at http://disarmament.un.org/cab/milex.html.

NOTE:

1. Figures exclude Goods and Services Tax, capital charge, depreciation and profit/loss on sale of fixed assets and resources (except those specified)
2. Previous returns excluded some operating costs such as utilities, telecommunications, freight and customs. These have been included in 'other operating costs' column in this report.
3. Peacekeeping was not separated out in previous returns. This report does not separate out expenditure between United Nations and other peacekeeping missions as some data was unable to be separated to attribute/identify United Nations and non-United Nations costs. However, the vast majority of such costs are for East Timor (84%) and most of the remaining operations are also United Nations mandated.

Instrument for standardized international reporting of military expenditures

(Actual outlays, current prices)

Country: Thailand Fiscal year: 2003

National currency and unit of measure: millions of baht

(The unit of measure should not exceed one ten thousandth of the total military expenditures.)

The information on Thailand's military expenditures, as provided by the Ministry of Defense of Thailand, breaks down the expenditures into two main categories, namely, (1) operating cost and (2) procurement and construction. The figures are in Thai baht which has an exchange rate of approximately 42 bahts to 1 United States dollar on 11 March 2002, the date the report was prepared. Furthermore, the fiscal year 2002 for Thailand begins on October 2001 and ends on 30 September 2002.
